

OPAC Priority List (Overview from Deb)

	Issue	SDLN Response
1	Make all libraries aware of permanent changes to the OPAC as they happen.	Patrick sends all updates to the SDLN-REF list
2	Call numbers (for individual libraries) need to display on initial results screen.	Done
3	Create Exact Title Search.	Not Possible to work like pals
4	Create Exact Author Search.	Not Possible to work like pals
5	Make record display comparable to PALS medium record display.	Done
6	Put list of displayed tags on the web.	In Progress
7	Make general material designation (subfield h) display after subfield a in the 24X tags.	In Progress
8	Modify search results without having to reenter the original search.	Done
9	Syndetics content needs to be more visible within the catalog using context-sensitive links to reviews, summaries, etc.	Not Possible
10	Place holds and manipulate My List and My Basket items.	Version Issue - Not Possible on 16
11	Call numbers need to display in My List and My Basket.	Version Issue - Not Possible on 16
12	Suppress the STA \$\$a SUPPRESSED records from the OPAC	Transferred from Cataloging list to OPAC list. This can be done now. It is a library-by-library decision.
